## Of Local and Personal Interest

Norman Johnson received a letter last week from his brother Oscar who went to France several months ago with the Canadian Artillery. He sure is a Fighting Kid of the 7th and a credit to his parents, Mr. and Mrs. Hans Johnson of Alderson. The following is an extract from his last letter.

FLANDERS,

March 4th, 1916.

Dear Brother,  
"We have had a pretty good time of it. Was up to D— last night to hear the band concert and to see the movies at the Y.M.C.A. tent. You can buy things at English prices at the Y. canteen, so it comes in pretty handy. The Calgary band was playing there and everybody says it is the best band that has come over with the Canadians so far. We had a big artillery bombardment the other day and it was exciting; I was in the trenches watching the effects of it on the Germans. It sure was grand sight to see our shells bursting over Fritz's trenches. The shells were falling in a perfect hail, and in the meantime Fritz was sending whiz bangs over at us, but they either fell short or went over our heads. Our own shells were whistling above us on their way 80 yds. further on into the German lines. We took a lot of trenches and about 200 prisoners."

The French are still holding out at Verdun, and are sure pounding the Germans something awful. The German losses were estimated at 80 thousand, and the ground was so littered with dead that some of them were found upright, the trenches being so packed that they had no room to fall. Fritz is sure getting hell these days and if it keeps up at this rate the war won't last much longer.

The boys out here are laying bets that it will be over in September and I hope they are right, but we don't want to quit until we have given them such a wallop that they will never come back for more. They are a tricky bunch and would just as soon trust a bunch of Apaches as any of them.

Well, I will have to quit now with hopes of hearing from you soon.  
Jack.

The Cradle Roll Dept. of the Methodist Sunday School will hold a Special service on Sunday April 2nd at 11 a.m. Baptismal service and distribution of certificates to the little ones. This will be a proper children's day.

A budget of news items from Tide Lake and Brutus are held over to next issue.

Frank L. Brown is on a business trip to Winnipeg.

We will have a quantity of Macaroni Wheat for sale. Makes A No. 1 Seal Scollard and Hegy.

## DEATH OF OLGA HOIDGE

An extremely sad death occurred at noon on Wednesday when Miss Olga Evelyn Hoidge, beloved and only daughter of T. E. Hoidge, Principal of Alderson School, passed to rest after a lingering illness of several months from Tuberculosis.

All remember that it was only ten weeks ago that Mr. Hoidge lost his wife, Mrs. Hattie Hoidge, under similar very trying circumstances.

A strenuous fight for life was made by Miss Hoidge, and every thing that care and medical skill could do for her was tried, but in vain. This is the last member of the family of Mr. Hoidge, and what was once a happy home is now completely broken. In 1912 while residing at Kinnondale, Mr. Hoidge lost his only son, Morley, who died in the Calgary Hospital. Three deaths in less than four years is an affliction that few of us are called upon to bear, and expressions of the sincerest sympathy are heard on all sides for the bereaved father.

Olga Evelyn Hoidge was only 18 years and 11 months old. She was born in the City of Montreal. Mr. Hoidge was engaged in that City at the time in the C. P. R. offices there later in journalistic work.

The funeral has been arranged to take place from the Methodist Church at 3 p.m. on Friday. Numerous floral tributes have already found their way to the sad home. A full list will appear in the News next week.

## CANADIANS SHEW 4 to 1 PREFERENCE for FORD CARS

Recent figures show that of all automobiles licensed in the nine provinces of the Dominion during the past year, the Ford car was chosen in a proportion of four times to one of all other makes combined.

There were 22,070 cars sold in Canada in these twelve months. Of this number 17,570 were Fords, leaving a balance of 4500 cars of other makes.

Indications show a still wider popularity for the Ford this year since, to meet the demand already evinced, the Canadian Ford Company is building twice as many cars this year as they did last. This means that the number of Fords in the Dominion will be increased by nearly 40,000 by August 1st 1916.

It is likely that this is a result of that stricter adherence of economy that the Government has been urging the public to follow during the last year or more. People are buying automobiles without so many frills; they are demanding that maximum of motor car service at a minimum cost so well represented by the Ford car.

## THE BEST KIND

Alderson district is coming into its own. It's an old expression that in a new country there are always three gangs to be found. The one going, the one coming and the one staying. It's the stayers that build up the country. In the last couple of months there has been half a dozen Judicial sales of property of residents who have left their land for distant parts. In nearly every instance the land has passed into the hands of real farmers who are interested in its development. On April 15th in town three more sales are advertised to take place. The Mortgage Company managers assure the News that no such sales are held until it is fully proved that the land has been left on their hands. Investors who have a little money on their hands are getting some excellent land bargains these days. Let the good work continue.

## THE AUCTION MART.

The semi-monthly auction sales conducted by Harry W. Johnson are a benefit to the town in many ways. The buyers are brought to town as well as the sellers. They do save the purchaser money. Another Auction Mart is billed for this Saturday, April 1st.

Buy an Irrigated Farm  
FROM THE CANADIAN PACIFIC RAILWAY

**BECAUSE**  
Irrigation makes the farmer independent of rainfall and in-  
sures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the  
king of fodders, which insures best returns in dairying and  
mixed farming.

Irrigation means intensive farming and close settlement with  
all the advantages of a densely populated agricultural  
community.

Irrigation in the Canadian Pacific Railway Irrigation Block  
is no longer an experiment, the year 1914 having absolutely  
demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Rail-  
way at prices ranging from \$35 to \$75 per acre, with twenty  
years to pay and the privilege of a loan of \$2,000.00  
for improvements (6% interest); no principal payment at  
the end of first and second years and no water rental for first  
year. Assistance is also given in supplying stock in approved  
instances.

This is the most liberal offer of irrigated farm land on record

## THE GOLDEN EGG AND THE GOOSE

Old-Fable Applies to "Made-in-Canada"  
—How Merchants Often Stand  
in Their Own Light

The following statement has been circulated in connection with the "Made-in-Canada" movement, and is well worthy of the attention not only of merchants to whom it is particularly addressed, but also of the average consumer who often sends his money away from his own town and outside of Canada when he could spend it just as advantageously in his own town for goods "Made-in-Canada."

"The Goose That Lays the Golden Eggs"

Don't say anything that will lessen her laying power!  
On the contrary, feed her and nourish her so that you'll get more eggs from her! She needs your help and your good-will.

Did it ever occur to you that, out of every dollar's worth of Canadian-made goods you buy, about 50 cents goes to the Canadian workman living in some Canadian town or city, and enables him to buy about 50 cents worth more goods from his tradesman?

Did it ever occur to you that, out of every dollar's worth of foreign-made goods you sell, about 75 cents or more disappears from Canada forever, and the buying capacity of the Canadian workman is correspondingly reduced?

The wages that should be in his pocket have been paid to the foreign workman.

In 1915, over \$650,000,000 of Canadian money was spent for foreign goods. Think of it—six hundred and almost two millions! Half of these goods could have been made in Canada, and Canadian workmen and Canadian retailers would then have been \$100,000,000 to \$150,000,000 better off than they are to-day.

This tremendous leak of nearly \$2,000,000 per day is still going on! You can help to stop some of it, and, moreover, you owe it to yourself and your own business to do all you can to check this drain on the country's resources.

Do decide now, to help feed the goose! Decide now to increase the sale of Canadian-made goods! Decide now to keep more money in Canada.

## A NEW IMPETUS

United States: Firms Looking to Canada For Branch Factories Again

During the past couple of years the movement of American industries to Canada and the establishment of branch factories in the Dominion slackened off to some extent, as compared to the rapid progress that was made in the building up of United States industries in Canada in 1910 and 1911. Now the movement is being accelerated again, and, according to the Boston "Daily Trade Record" of March 26th, the "Made-in-Canada" campaign is responsible.

After referring to the fact that the "Made-in-Canada" campaign is taking business from American firms, which are now compelled to plant branches in the Dominion, the Record quoted Mr. G. W. Curtis, agent of the Canadian Pacific Railway, who has just made a trip to the United States, and reports that the "Made-in-Canada" movement had caused a considerable falling off in the business which the United States had hitherto done in Canada. The new war tariff of 7 1/2 per cent. also served to keep out American goods.

As a result of these two factors, Mr. Curtis has received many inquiries from American manufacturers who are planning to establish branch factories in Canada so that they may benefit by the "Made-in-Canada" movement, instead of losing by it as is now the case with their factories in the United States side of the line.

This unqualified testimony from United States to the effectiveness of the "Made-in-Canada" movement, which has swept over the Dominion during the last few months, affords abundant evidence of the value of the publicity methods adopted. That the "Made-in-Canada" movement will further strengthen in the next few months if it is going to result in an increase in the number of industries in Canada will be the wish of all those who have a knowledge of the unemployment situation in the Dominion. Not only will new branches of American factories in Canada increase employment for Canadian mechanics, but the building and equipment of these factories will tend to revive building trades and create activity in many industrial subsidiary in the building trades.

## REPORTED THEFT OF \$2500

That he appropriated \$2500 that he should have sent to the Winnipeg branch of the Union bank is now said of S. H. McLeod the missing teller of the bank. He is also concerned an alleged forger at the Seven Persons branch. As reported last week in the News Mr. McLeod made his hurried departure for the east on Saturday evening March 18th. He was supposed to be going for a week end trip only.

The Union Bank will not suffer any loss as the Bond Co. must make the defalcation good. It is said they already have Pinkerton men on his trail and it is expected that it is only a matter of a few days when he will be apprehended. Constable Hollands of the local R.N.W.M.P. is also interesting himself in the capture.

The parcel of money stolen "Sundry." That banker's position means of different bank.

About \$700 was in American money and if the ex-banker went to the states it could of course pass muster easily. The remaining Canadian Money might not pass so easily as it is stated that since the war commenced our American cousins do not show the same avidity for Canadian money.

The News is informed by a friend of several years standing of the missing teller that the young man's father is a probate Judge in a small town of Minnesota. He has several brothers and sisters living near Carbon, Alberta.

S. Ellingson, representing the Assiniboia Music Co. Medicine Hat is in town this week.

Owing to the quick action of Messrs Jno. Dixon and Van D. Jones the home of J. G. Rosenberg was saved from fire, early Wednesday morning. The details will be published next issue. Mr. Rosenberg has been in very poor health and was taken to Medicine Hat on Wednesday to undergo an operation.

Subscribe to the News and you won't become an old fossil.

Norman Ellis and Family have returned to this good country from Montana.
